Activity 2: – The partnership identified, collected, and recorded best practices and programmes for the social inclusion of elderly people (focus on women) and developed the **Mapping Tool,** presented as accessible and open through the project's website. Filtering options can be applied by the users for the country, type of programmes, etc.

In Activity 2, **innovative forums** were also organised in Poland, Bulgaria, and Cyprus with Adult Educators and Elderly women, which highlighted the main challenges for the inclusion of elderly people in society, best practices used by adult educators, and their current knowledge of digital storytelling.

Lastly, a **competence framework** for elderly women was developed for digital, literacy, and civic competences.
